# Don't Trade, Upgrade

**Herschel-Adams  
TIGER JAWS has  
been the world's  
finest cutterbar  
conversion system  
for years. And now  
the best has been  
improved. Today,  
there are more  
reasons than ever to  
upgrade the combine  
you already own with  
the new TIGER JAWS  
2000. Just bolt it  
on and turn it loose!**

## Cut Harvest Down to Size

You'll be amazed how fast and efficient soybean harvests can be! TIGER JAWS 2000 technology provides four times more cuts per cutting cycle and can increase ground speed by 1 to 2 mph or more. And the new SUPER 7 section, with seven teeth per inch, gives a more aggressive cut that stays sharp longer. This faster, cleaner cut allows more grain to fall gently into the header and reduces whiplash and shatter loss, saving you a bundle! Use less fuel, capture more grain, and save valuable time. Turns any combine into a high-performance animal, and can pay for itself in just one harvest!

## There Are Copycats, But They Can't Provide the Exclusive Advantages of TIGER JAWS 2000

- Newly designed, easily adjustable, stamped-steel hold down clips eliminate the use of shims.
- Precision engineered and made in the USA with the highest quality materials and finest craftsmanship for reduced maintenance and longer life.
- Features a new rugged, heat-treated, 2-foot wear plate to provide smoother sickle operation, longer wear and reduced drag, and doesn't hinder the flexibility of the cutterbar.
- The 1.5' system with Herschel-Adams' patented 4-prong open face guards provides clean shearing action in tough cutting conditions where the conventional 3" systems often fail.
- The low-profile design enables the crop to flow smoothly and evenly into the header, reducing shatter loss and increasing yields up to 5%.
- An optional pickup guard is available for use in down crops.
- The new SUPER 7 section, with seven teeth per inch, provides a more aggressive cut and stays sharp longer.
- New spliced sickles are UPS shippable.
- Conversion packages are available to upgrade the original TIGER JAWS system to TIGER JAWS 2000.

**It cuts down the competition  
and can pay for itself in just  
one harvest!**
