

FLO-RITE SEED FIRMERS

Revolutionary Seed Firmer Technology
Exclusively Distributed By Herschel.

- Memory Polymer
- Lower Replacement Cost
- Optimum Seed Placement
- Made By Farmers For Farmers

flo-rite®

seed firmers

TESTIMONIALS

"I was impressed with the Flo-Rite seed firmer. I did a lot of digging and the seeds were right where they were supposed to be in the trench. The down pressure of the Flo-Rite is the best I've seen. They definitely helped contribute to even corn emergence."

Bob Crites | Hicksville, OH

"The best thing I can say is they work! The different color wear plate allows you to see and measure the wear better. As a result, I know I will change the wear plate more often allowing the equipment to do the best job possible. They work so well, I'm going to put them on both my new planters this year. I don't want to plant without them."

Bill Gentry | Henderson, KY

"We ran the seed firmers over all our corn acres. They are extremely durable and I like that you can see how much wear you are getting on the replaceable wear plate. The flex and down pressure is better than what the Keeton seed firmers offer."

Duane Appel | Edgerton, OH

"I had no problems at all. I was very impressed. When the planter is down, you have more pressure with the Flo-Rite seed firmer. Over a period of time, the Flo-Rite firmer is going to hold its position better. The Keeton's tend to weaken relatively quickly. I will definitely recommend Flo-Rite seed firmers to other farmers."

Gary Vollmer | Hicksville, OH

DRILL FIRMER

Universal without wear plate.

PN: DF410T Retail
35.95

DRILL FIRMER

Universal with replaceable wear plate.

PN: DF420W Retail
35.95

SEED FIRMER

Universal. For attachment to planter seed tube. With hardware.

PN: FR100 Retail
35.95

SEED FIRMER

Fits all JD Precision Planting® Universal Mounting Bracket but 7000 Series & ExactEmerge.

PN: FR200 Retail
35.95

SEED FIRMER

Low Profile Long. Fits JD MaxEmerge5 & Kinze 4900.

PN: FR210 Retail
35.95

REPLACEABLE WEAR PLATE

Fits all firmers.

PN: FR350 Retail
7.95

INSERT & REMOVAL TOOL

Used to remove and install wear plates.

PN: FR400 Retail
89.95

SEED FIRMER

Low Profile Short. Fits JD MaxEmerge 5 & Kinze 4900.

PN: FR425 Retail
35.95

UNIVERSAL MOUNTING BRACKET

Fit JD 7000, 7100, 7200, 7300, 1700 Series, Kinze 2000, 3000 Series. White 6000, 8000 Series. Compatible with Wave Vision Seed Tubes.

PN: FR500 Retail
15.16

JD MAXEMERGE 5 BRACKET

PN: FR550 Retail
41.17

JD EXACTEMERGE BRACKET

PN: FR555 Retail
33.08

UNIVERSAL GOLD BRACKET

Fits inside row unit between scrapers. Fits JD 7000, 7100 series. Kinze 2000, 3000 series. Compatible with Wave Vision Seed Tubes.

PN: FR600 Retail
15.16

WHY SHOULD YOU USE FLO-RITE SEED FIRMERS?

1. Lower Replacement Costs

Although Flo-Rite seed firmers initially cost about the same as other leading seed firmer brands, maintenance costs of Flo-Rite seed firmers are dramatically less. Flo-Rite's exclusive replaceable wear plate saves farmers money over time. With traditional seed firmers, when the firmer contact point wears out, you have to replace the entire seed firmer unit. But with Flo-Rite seed firmers, you simply replace the wear plate and the firmer works just like new.

2. Optimum Seed Placement

Flo-Rite seed firmers use the latest in memory polymers to provide reliable down pressure to assure the best seed placement and proper seeding depth. Flo-Rite's optimal down pressure maximizes the proper seed to soil contact needed to improve germination success.

3. Protected Liquid Tube

Another problem with traditional seed firmers is that the liquid tubes are "bracketed" on the outside of the seed firmer body. This leaves the liquid tube exposed to crop debris and soil that can rip the tube from the firmer body. But with Flo-Rite's patent pending enclosed stainless steel liquid tube, this problem is eliminated so you can keep on planting!
